

Weekly Progress Report

Name: Devwrat Gupta

Domain: Python Programming

Date of submission: 08/07/2026

Week Ending: 03

I. Overview:

This week focused on revising the core concepts of Python through a basic assessment. The quiz covered topics learned during the previous weeks, helping me strengthen my understanding of Python fundamentals and identify areas that need more practice.

II. Achievements:

1. USC_TIA Familiarization:

- Continued following the internship learning schedule.
- Completed the Week 4 Python assessment successfully.

2. Python Project Contributions:

Name of the project:- File Organizer

- Reviewed the File Organizer project developed in the previous weeks.
- Revisited the project code to better understand the use of conditions, loops, functions, and file handling concepts.
- Improved confidence in reading and understanding Python code.

3. Learning Python:

- Revised Python basics including variables, data types, operators, conditional statements, loops, functions, and file handling.
- Attempted the weekly Python quiz covering fundamental programming concepts.
- Strengthened understanding by reviewing incorrect answers after completing the assessment.

III. Challenges:

1. Python Assessment:

- Some questions required careful understanding of Python syntax and program output.
- Reviewed basic concepts again to improve accuracy in future assessments.

IV. Learning Resources:

1. USC_TIA Documentation:

- Referred to the internship learning materials and previous week's notes.
- Reviewed Python examples to reinforce fundamental concepts.

2. Python Learning Resources:

- Practiced small Python programs for revision.
- Solved basic Python questions similar to those asked in the assessment.

V. Next Week's Goals:

1. Python Learning:

- Continue learning new Python topics provided in the internship.
- Practice more programming questions to improve problem-solving skills.

2. Python Project Development:

- Maintain the File Organizer project and apply newly learned concepts whenever applicable.

VI. Additional Comments:

This week's assessment was a good revision of Python fundamentals. It helped me evaluate my understanding of the concepts covered during the internship and motivated me to continue practicing regularly.
